

– TGA Wireless Device Recycling Program –

- ◆ Keeps cell phones (and other wireless devices) out of landfills
- ◆ TGA removes all data from phones
- ◆ TGA repairs broken devices. If they can't be fixed, usable components are recycled
- ◆ A strict “no landfill” policy is followed

– Fast Facts –

- Only 10% of people recycle their wireless devices.
- If the 3 billion wireless device owners recycled, carbon emissions saved would be equivalent to taking 4 million cars off the road.
- Making a new wireless device consumes 10 gallons of gas and emits CO2 equivalent to burning 6 gallons of gas.

Our recycling bin is located at: Town Center
375 West Briarcliff Road
Bolingbrook, IL 60440
