Discreet impulses which do not exceed 100 per minute shall be considered impact vibrations.

(C) **Smoke.** For the purpose of grading the density or equivalent capacity of smoke, the Ringlemann Chart described in the U.S. Bureau of Mines Information Circular 8333 shall be employed. The emission of smoke or particulate matter of a density or equivalent greater than No. 2 on the Ringlemann Chart is prohibited at all times except as otherwise provided hereinafter. Dust and other types of air pollution borne by the wind from such sources as storage areas, yards, roads and the like within lot boundaries shall be kept to a minimum by appropriate landscaping, paving oiling, fencing, wetting, or other acceptable means. The open burning of refuse, paint, oil, debris and any other combustible material is prohibited in all industrial districts. Particulate matter loadings in pounds per acre described below shall be determined by selecting a continuous four (4) hour period which will result in the highest average emission rate.

1. **I-1 Industrial District.**
   a. The emission of smoke having a density or equivalent opacity in excess of Ringlemann No. 0 is prohibited. However, for two (2) minutes in any four (4) hour period, smoke up to and including Ringlemann No. 2 shall be permitted.
   b. The rate of emission of particulate matter from all vents and stacks within the boundaries of any lot shall not exceed 0.2 pounds per acre of lot area per hour.
2. **I-2 Industrial District.**

   a. The emission of smoke having a density or equivalent opacity in excess of Ringlemann No. 0 is prohibited. However, for two (2) minutes in any 60 minute period, smoke up to and including Ringlemann No. 2 shall be permitted.

   b. The rate of emission of particulate matter from all stacks and vents within the boundaries of any lot shall not exceed one (1) pound per acre of lot area per hour.

   (D) **Odor.** The release of materials capable of becoming odorous either by bacterial decomposition or chemical reaction shall meet the standards of the district in which the odor is created. Odor thresholds shall be determined in accordance with ASTM D 1391-57, "Standard Method for Measurement of Odor in Atmospheres (Dilution Method)" or its equivalent.

   1. In the I-1 District, odorous materials released from any operation or activity shall not exceed the odor threshold concentration beyond the lot line, measured either at ground level or habitable elevation.

   2. In the I-2 District, odorous materials released from any operation or activity shall not exceed the odor threshold concentration beyond the district boundary line, measured either at ground level or habitable elevation.

   (E) **Toxic Matter.** The measurement of toxic matter shall be at ground level or habitable elevation and shall be the average of any 24 hour sampling period. The release of any airborne toxic matter shall not exceed the fractional quantities permitted of those toxic materials currently listed in Threshold Limit Values adopted by the American Conference of Governmental Industrial Hygienists. If a toxic substance is not contained in this listing, the applicant shall satisfy the Village that the proposed levels will be safe to the general population.

   1. In the I-1 District, the release of airborne toxic matter shall not exceed 2.5 percent of the Threshold Limit Value across lot lines.

   2. In the I-2 District, the release of airborne toxic matter shall not exceed 2.5 percent of the Threshold Limit Value across district boundary lines.

   (F) **Fire and Explosive Hazards.**

   1. Detonable Materials. Activities involving the storage, utilization or manufacture of materials or products which decompose by detonation shall be in accordance with the regulations of each manufacturing district. Such materials shall include, but are not limited to: boron hydrides, hydrazine and its derivatives; unstable oxidizing agents such as perchloric acid perchlorates and hydrogen peroxide in concentrations greater than 35 percent; and nuclear fuels, fissionable materials and products, reactor elements such as Uranium 235 and Plutonium 239.

   2. In any industrial district, the storage, utilization or manufacture of materials or products which decompose by detonation is limited to five (5) pounds per user.

   3. All storage, utilization or manufacture of material or products which decompose by detonation shall be subject to the requirements of the Bolingbrook Fire Department as based on the National Fire Protection Association Code.
(G) **Fire Hazard Solids.**

1. In the **I-1 District**, the storage, utilization or manufacture of solid materials which are active to intense burning shall be conducted within spaces having resistive construction of no less than two (2) hours and protected with an automatic fire extinguishing system. Outdoor storage of such materials shall be no closer than forty (40) feet from lot lines.

2. In the **I-2 District**, the storage, utilization or manufacture of solid materials which are active to intense burning shall be conducted within spaces having fire resistive construction of no less than two (2) hours and protected with an automatic fire extinguishing system. Outdoor storage of such materials shall be no closer than forty (40) feet from lot lines.

ARTICLE 6 -- OFF-STREET PARKING AND LOADING

PART 1 - GENERAL PROVISIONS.

SECTION 6-101. PURPOSE. The purpose of this Section is to alleviate or prevent the congestion of the public streets and to promote the safety and welfare of the public by establishing minimum requirements for the off-street parking and loading and unloading of motor vehicles in accordance with the use to which property is put.

SECTION 6-102. GENERAL PROVISIONS - PARKING AND LOADING.

(A) Scope of Regulations. The off-street parking and loading provisions of this Ordinance shall apply as follows:

1. For all buildings and structures erected and all uses of land established after the effective date of this Ordinance, accessory parking and loading facilities shall be provided as required by the regulations of the district in which such building or uses are located. However, where a permit has been issued prior to the effective date of this Ordinance, and provided that construction is begun within one year of such effective date, and diligently prosecuted to completion, parking and loading facilities as required hereinafter need not be provided.

2. When the intensity of use of any building, structure or premises shall be increased through the addition of dwelling units, gross floor area, seating capacity or other units of measurement specified herein for required parking or loading facilities, parking and loading facilities as required herein shall be provided for such increase in intensity of use.

3. However, no building or structure lawfully erected or use lawfully established prior to the effective date of this Ordinance shall be required to provide such additional parking or loading facilities unless and until the aggregate increase in units of measurement shall equal not less than fifteen (15) percent of the units of measurement existing upon the effective date of this Ordinance, in which event parking or loading facilities as required herein shall be provided for the total increase.

4. Whenever the existing use of a building or structure shall be changed hereafter to a new use, parking and loading facilities shall be provided as required for such new use. However, if the said building or structure was erected prior to the effective date of this Ordinance, additional parking or loading facilities shall be required only in the amount by which the requirements for the new use would exceed those for the existing use if the latter were subject to the parking and loading provisions of this Ordinance.

(B) Existing Parking and Loading Facilities. Accessory off-street parking or loading facilities which are located on the same lot as the building or use served and which were in existence on the effective date of this Ordinance or were provided voluntarily after such effective date shall not hereafter be reduced below, or if already less than, shall not further be reduced below, the requirements of this Ordinance for a similar new building or use.

(C) Permissive Parking and Loading Facilities. Nothing in this Ordinance shall be deemed to prevent the voluntary establishment of off-street parking or loading facilities to serve any existing use of land or buildings provided that all regulations herein governing the location, design, improvement and operation of such facilities are adhered to.
(D) **Damage or Destruction.** For any conforming or legally non-conforming building or use which is in existence on the effective date of this Ordinance, which subsequent thereto is damaged or destroyed by fire, collapse, explosion or other cause, and which is reconstructed, re-established or repaired, off-street parking or loading facilities equivalent to any maintained at the time of such damage or destruction shall be restored or continued in operation, except that when such damage or destruction exceeds more than 50% of the value of the building or use, sufficient off-street parking or loading facilities shall be provided as required by this Ordinance for equivalent new use or construction. However, in no case shall it be necessary to restore or maintain parking or loading facilities in excess of those required by this Ordinance for equivalent new uses or construction.

(E) **Control of Off-Site Parking Facilities.** When required parking facilities are provided on land other than the zoning lot on which the building or use served by such facilities is located, they shall be and remain in the same possession or ownership as the zoning lot occupied by the building or use to which the parking facilities other than on the same zoning lot until and unless the Zoning Board of Appeals has reviewed the plans and heard the applicant and made findings that the common ownership or possession of the zoning lot and the site of the parking facilities are reasonably certain to continue and that the off-site parking facilities will be maintained at all times during the life of the proposed use or building.

(F) **Submission of Plot Plan.** Any application for an improvement location permit for certificate of occupancy where no permit is required, shall include therewith a plot plan - drawn to scale and fully dimensioned - showing any parking or loading facilities to be provided in compliance with this Ordinance.

(G) **Phased Installation of Parking Facilities.** (Ordinance 96-070, 06.25.96) Upon presentation of clear and convincing evidence by the applicant that the total number of required parking spaces are not immediately necessary for the current use of a building or structure, the Board of Trustees may permit the phased installation of the parking facilities. Sufficient area shall be reserved on the site for the construction of future parking facilities in accordance with the requirements of the Zoning Ordinance, and parking facilities shall be installed when the Board of Trustees determines that they are warranted. If phased installation of parking facilities is approved, the applicant shall enter into an agreement, in a form acceptable to the Village, setting forth the terms and conditions applicable to the phased installation of parking facilities. The agreement shall run with the land and shall be recorded with the Will County Recorder of Deeds at the applicant’s sole cost and expense. The agreement shall further provide that, in the event that the applicant fails to comply with any term or condition thereof, the Village shall have the following legal remedies, none of which shall be exclusive:

1. the right to sue for breach of contract, whether in law or in equity, for damages, specific performance, or any other legal remedy deemed appropriate by the Village;

Notwithstanding the foregoing Special Use Permit standards, if there is a pre-existing Health Care Special Use (defined in Section 4-301(B)) and the applicant seeks a Special Use Permit to add another Health Care Special Use to the same district, then a Special Use Permit shall be granted if the Board of Trustees determines that the proposed building or use is compatible and consistent...

PART 1 - GENERAL REGULATIONS FOR PLANNED DEVELOPMENT.

SECTION 9-101. PURPOSE. To encourage improved design in the development of land by providing relief from traditional zoning requirements which are designed for conventional developments but which may cause undue hardship or complication for desirable but unconventional development, and to establish standards and procedures for the issuance of a Special Use Permit for Planned Developments in order to obtain the following objectives:

(A) Environmental design in the development of land that is of a higher quality than is normally possible through the strict application of general zoning ordinance requirements.

(B) Diversification in the uses permitted and variation in the relationship of uses, structures, open spaces and heights of structures in developments conceived as cohesive unified projects.

(C) Provision for functional and beneficial use of open space.

(D) Preservation of natural features of a development site.

(E) Provision for a safe and desirable living environment in residential areas characterized by a unified building and site development program.

(F) Rational and economic development in relation to public services.

(G) Creation of a variety of uses, in compatible arrangements, to provide a greater choice of living, working and shopping environments.

SECTION 9-102. MODIFICATION OF DISTRICT REGULATIONS. Planned Developments shall be constructed in each zoning district as a Special Use subject to the standards and procedures set forth in this Article:

(A) Except as modified by and approved in the Ordinance approving a Final Development Plan, a Planned Development shall be governed by the regulations of the district or districts in which the said Planned Development is located. Notwithstanding the foregoing, uses which are Permitted or Special Uses in the I-1 Limited Industrial District or I-2 General Industrial District shall not be allowed as uses in planned residential, commercial or office developments. (Ordinance 10-065, 09.28.10)

(B) The Ordinance approving the Final Development Plan for the Planned Development may provide for such exceptions from the district regulations governing use, density, area, bulk, parking and signs, landscape requirements, open storage regulations, screening and berming requirements, maximum impervious coverage and open space requirements, parking and off-street loading requirements, and the subdivision design standards and approval procedures as may be necessary or desirable to achieve the objectives of the proposed Planned Development, providing such exceptions are consistent with the standards and criteria contained in this Article. No modification of the district requirements or the subdivision design standards may be allowed when such proposed modification

2. Traffic congestion in the streets which adjoin the Planned Development.
3. An undue or disproportionate burden on public parks, recreational areas, schools, fire and police protection and other public facilities which serve or are proposed to serve the Planned Development; and

4. A development which will be incompatible with the purpose of this Ordinance.

(C) [Changed in its entirety by Ordinance 88-049, 07.26.88] The ordinance approving a special use for a planned development may provide for expedited development plan review procedures. Such procedures shall be as follows:

1. Approval by the Village Board of a concept development plan and preliminary engineering plans for public improvements, which shall constitute and be in lieu of the preliminary development plan approval procedures set forth in Section 9-501 et seq. hereof, provided that a public hearing with respect to such concept development and engineering plans shall be held before the Plan Commission prior to such approval;

2. Approval by the Village staff and Plan Commission of detailed site plans and final detailed engineering plans for individual lots or phases of the planned development after review of said plans, such review and approvals solely in order to determine whether the plans conform with the concept development plan and preliminary engineering plans, the applicable conditions of the special use for such planned development, and the applicable codes and ordinances of the Village, as modified by such conditions of special use. No public hearings shall be required with respect to such site plans and detailed engineering plans. The Village staff shall submit its findings to the Plan Commission on the first Friday following completion of such staff review of the developer's submissions. Village staff objections must be based upon and shall be expressly limited to non-compliance of such site or detailed engineering plans with the approved concept development plan and preliminary engineering plans, the applicable conditions of special use for the planned development, and applicable codes and ordinances of the Village, as modified by such conditions of special use. The Plan Commission shall approve of, disapprove of, or shall object to, such site plans and detailed engineering plans at the next regularly scheduled meeting. Plan Commission disapproval or objections must be based upon and shall be expressly limited to non-compliance of such site or detailed engineering plans with the approved concept development plan and preliminary engineering plans, the applicable conditions of special use for the planned development, and the applicable codes and ordinances of the Village, as modified by such conditions of special use. In the event the Plan Commission does not approve, disapprove or object to such site and detailed engineering plans at the next regularly scheduled meeting of the Plan Commission, such site and detailed engineering plans shall be conclusively deemed approved by the Plan Commission. No further public hearings shall be required. Approval by the Plan Commission hereunder shall constitute and be in lieu of the final development plan approval procedures set forth in Section 9-501 et seq. hereof.

3. In the event the Plan Commission determines that the approved concept development plan, approved preliminary engineering plans, the applicable conditions of the special use or the applicable codes and ordinances of the Village have not been met by the site and detailed engineering plans submitted pursuant to Section 9-102(C)(2), then the Developer may, within thirty days thereof, appeal said decision to the Board of Trustees. The Board of Trustees shall render a final decision thereon at the next regularly scheduled meeting of the Village Board of Trustees.
The Plan Commission may recommend to the Village Board and the Village Board may grant a Special Use Permit which modifies the applicable district zoning regulations and subdivision regulations upon a written finding by the Plan Commission that the Planned Development meets the applicable standards and criteria contained in Parts 1, 2, 3 and 4 of this Article. Such written finding shall set out the reasons supporting each finding and shall support each of the following standards and the applicable provisions of Parts 2, 3 and 4 hereof:

(A) The proposed development will not injure or damage the use, value and enjoyment of surrounding property nor hinder or prevent the development of surrounding property in accordance with the Comprehensive Land Use Plan of the Village.

(C) The proposed development can be substantially completed within the period of time specified in the schedule of development submitted by the applicant.

(Ordinance 88-049, 07.26.88)

(F) In order to avoid overloading Village facilities beyond designed capacity, the development shall be permitted only if (i) sanitary sewers, storm sewers and water supply to service the development are adequate to serve the proposed development and will not reduce existing capacity below that necessary to serve existing developments or (ii) if such sanitary sewer, storm sewer or water supply services are provided by a municipality other than the Village. (Ordinance 88-049, 07.26.88)

(G) The location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the surrounding land uses, and any part of a proposed development not used for structures, parking and loading areas, or accessways, shall be landscaped or otherwise improved.

(H) There is no minimum project area for Planned Developments.

(I) The minimum project area shall be adaptable to unified development and shall have within or through the area no physical features which will tend to destroy the neighborhood or community cohesiveness.

(J) The dominant land use of the proposed Planned Development shall be consistent with the recommendations of the Comprehensive Plan of the Village for the area containing the project.

(K) Any modifications of the zoning or other regulations that would otherwise be applicable to the site are warranted by the design of the development plan, and the amenities incorporated in it, and are not inconsistent with the interest of the public generally.
Exceptional landscaping features such as larger caliper, varied species and reduced spacing of trees and additional sodding above minimum requirements specified shall be provided if called for in the final development plan or the expedited development plan under Section 9-102(C)(1), whichever is applicable. (Ordinance 80-057, 10.07.80)

SECTION 9-203. PERIMETER SETBACK REQUIREMENTS. All buildings on the perimeter of the Planned Development are subject to the following:

(A) The Plan Commission may request and the Village Board may require the front, side, corner side, double frontage rear, or rear yard setbacks on the perimeter of the development to be greater than those required by the Zoning Ordinance for the district in which such development is located when necessary to protect the privacy of both the Planned Development and the existing adjacent uses. (Ordinance 80-057, 10.07.80)

(B) If topographical or other barriers do not provide adequate privacy for the Planned Development and for existing uses adjacent the development, the Plan Commission may request and the Village Board may require that all structures located along the entire perimeter of the Planned Development be permanently screened with sightproof screening in a manner which is sufficient to protect said privacy.

(C) The Plan Commission may request and the Village Board may require that landscaped screening be installed by the developer in areas where setbacks are allowed that are less than those required by the Zoning Ordinance for the district in which the development is located.

No portion of a Planned Development shall be conveyed or dedicated by a developer or any other person, to any public body or a homeowner’s association unless the Plan Commission has determined that character and quality of the tract to be conveyed makes it suitable for the purposes for which it is intended. When making its determination, the Plan Commission shall give consideration to the size and character of the dwellings to be constructed within the Planned Development, the topography and existing trees, ground cover, and other natural features; the manner in which the open area is to be improved and maintained for recreational or amenity purposes; and the existence of public parks or other public recreational facilities in the vicinity. Traffic controls on public roadways within or adjacent the development will be provided by the Village as and where determined necessary by the Village Board of Trustees, but the Board may require, as a condition of approval of a proposed Planned Development, that the cost of installing such traffic controls be borne by the developer. Traffic control device installations shall be done in accordance with installation schedules and to standards as ordinarily applied on all public streets. If traffic control devices are required to prevent or relieve hazards or congestion on adjacent streets and the proposed control device is not within the normal or scheduled sequence of installations, such devices may be provided by the developer upon permission by the Board of Trustees for installation by the Village. 4. Designation of the location of all buildings to be constructed, and a designation of the uses for which each building is designed.

5. Final agreements, by-laws, provisions or covenants which govern the use, maintenance and continued protection of the Planned Development and any of its planned open space or other facilities conveyed to a homeowners association or similar organization. (Ordinance 80-057, 10.07.80)

6. Final development and construction schedule.

(B) The Final Development Plan shall be approved as follows:

1. The Plan Commission shall review the Final Development Plan within thirty-five (35) days of its submission and shall recommend approval if it is in substantial compliance with the Preliminary Development Plan. The Plan Commission shall certify to the Board of Trustees that the Final Development Plan is in conformity with the previously filed Preliminary Development Plan and meets all the requirements for a Final Development Plan.

2. The Board of Trustees shall approve the Final Development Plan if it is in conformity with the Preliminary Development Plan and meets all the requirements for a Final Development Plan. It shall pass an appropriate Ordinance granting the Special Use Permit.

3. If the Plan Commission finds that the Final Development Plan does not substantially conform to the Preliminary Development Plan or that it does not meet the requirements for a Final Development Plan, it shall so notify the applicant and the Board of Trustees in writing within thirty-five (35) days of submission.

SECTION 9-505. FAILURE TO BEGIN DEVELOPMENT. If no substantial construction has begun or no use established in the Planned Development within the time stated in the final development and construction schedule of the Final Development Plan, the Special Use Permit for the Planned Development shall lapse upon written notice to the applicant from the Village Board of Trustees and shall be of no further effect. The zoning regulations applicable before the Special Use for Planned Development was approved shall then be in effect. In its discretion and for good cause, the Board of Trustees may extend for a reasonable time, not to exceed one year, the period from the beginning of construction or the establishment of a use, provided such extension is granted during the original period.

SECTION 9-506. ZONING ADMINISTRATION - PERMITS.

(A) The Zoning Administrator may approve the issuance of permits for site or building construction for that part of the development plan that has been approved in the area covered by the approved Final Development Plan for work in conformity with the approved Final Development Plan and with all other applicable ordinances and regulations.

(B) However, the Zoning Administrator shall not approve an occupancy permit for any building or structure shown on the development plan of any stage of the Planned Development unless
the planned open space and public facilities allocated to that stage of the development have been conveyed to the proper authorities. A certificate of occupancy for any completed building or structure located in an area covered by the approved Final Development Plan may be issued if the completed building or structure conforms to the requirements of the approved Final Development Plan and all other applicable regulations and ordinances of the Village. (Ordinance 80-057, 10.07.80)

SECTION 9-507. ENFORCEMENT OF DEVELOPMENT SCHEDULE.

(A) The Zoning Administrator shall periodically review all permits issued for the Planned Development, examine all construction that has taken place on the Planned Development site, and compare actual development with the approved development schedule.

(B) If the Zoning Administrator shall find that the owners of the property in the Planned Development area have failed to meet the approved development schedule, or that the rate of construction of dwelling units is greater than the rate at which planned open space and public and recreational facilities have been constructed and provided, the Zoning Administrator shall notify the Plan Commission and Board of Trustees in writing.

(C) Within thirty (30) days of such notice, the Board of Trustees shall either revoke the Special Use Permit, and the land shall revert to its former classification, or, for good cause shown by the landowner, the limits of the development schedule shall be extended for a reasonable time.

SECTION 9-508. AMENDING FINAL PLAN. No changes may be made to the approved Final Development Plan during the construction of the Planned Development except upon the application to the appropriate agency under the following procedures:

(A) Minor changes in the location, siting and height of buildings and structures may be authorized by the Plan Commission if required by engineering or other circumstances not foreseen at the time the Final Development Plan was approved. No change authorized by this Section may increase the cube of any building or structure by more than ten percent (10%).

(B) All other changes in time schedule and in use, any rearrangement of lots, blocks and building tracts, any changes in the provision of planned open space and all other changes in the approved Final Development Plan shall be made by the Board of Trustees, upon recommendation of the Plan Commission, under the procedure authorized by this Ordinance for approval of the Special Use Permit. No amendments may be made in the approved Final Development Plan unless they are shown to be required by changes in conditions that have occurred since the Final Development Plan was approved. A self-imposed hardship shall not be a valid reason for change.

(C) Any changes approved shall be recorded as amendments to the recorded copy of the Final Development Plan.

(D) Notwithstanding anything to the contrary contained in subsections (A) and (B) above, in the event the final development plan is an expedited development plan under Section 9-102(C)2 above, the Plan Commission may authorize changes not relating to bulk, height or density requirements and may authorize changes in bulk, height or density requirements so long as no change authorized by this subsection increases the cube of any building or structure by more than fifteen percent (15%). All other bulk, height or density changes must be made pursuant to Subsection (B) hereof. (Ordinance 88-049, 07.26.88)
SECTION 9-509. POST-COMPLETION REGULATIONS.

(A) Upon completion of the Planned Development, and as a condition of the Village’s acceptance of the final public improvements, the Zoning Administrator shall issue a Certificate of Completion certifying the said completion.

(B) After the Certificate of Completion has been issued, the uses of land and construction, modifications or alteration of any buildings or structure within the Planned Development shall be governed by the approved Final Development Plan rather than by any other provision of this Zoning Ordinance.

(C) After the Certificate of Completion has been issued, no changes may be made in the approved Final Development Plan except upon application to the appropriate agency under the procedures for seeking amendments, Special Uses and variations with respect to the Bolingbrook Zoning Ordinance, as set out in Chapter 29 of the Bolingbrook Municipal Code.
ARTICLE 10 - NON-CONFORMITIES

PART 1 - SUBSTANDARD LOTS OF RECORD.

SECTION 10-101. AUTHORITY TO UTILIZE. In any residence district, notwithstanding the regulations imposed by any other provision of this Ordinance, a single-family detached dwelling which complies with the restrictions in Section 10-102 may be erected on a lot that is not less than twenty-five (25) feet in width, consisting entirely of one tract of land that:

(A) Has less than the prescribed minimum lot area, width, depth, or all three;

(B) Is shown by a recorded plat or deed to have been owned separately and individually from adjoining tracts of land at a time when the creation of a lot of such size or width at such location would not have been prohibited by any Zoning Ordinance; and

(C) Has remained in separate and individual ownership from adjoining tracts of land continuously during the entire time that the creation of such lot has been prohibited by the applicable zoning ordinance or ordinances.

SECTION 10-102. REQUIRED SIDE YARDS. Construction permitted by Section 10-101 shall comply with all the regulations (except lot area, width and depth) applicable to single-family dwellings in the zoning district in which the lot in question is located, provided, however, that the following side yard requirements shall apply in place of the side yard requirements otherwise applicable:

(A) A dwelling shall be placed on the lot so as to provide a yard on each side of the dwelling;

(B) The sum of the widths of the two side yards on each lot shall be not less than the smaller of:
   1. 25% of the width of the lot, or
   2. the minimum total for both side yards prescribed by the bulk regulations for said zoning district, and

(C) No side yard shall be less than 10% of the width of the lot and in no case less than three (3) feet.
PART 2 - NON-CONFORMING STRUCTURES.

SECTION 10-201. AUTHORITY TO CONTINUE. Any structure which is devoted to a use which is permitted in the zoning district in which it is located, but which does not comply with the applicable bulk, height, or floor area requirements or is located on a lot which does not comply with the applicable lot or yard requirements, or both, may be continued for the period of its normal useful life, so long as it remains otherwise lawful, subject to the restrictions in Section 10-202 through Section 10-204, and Section 10-401 through Section 10-404.

SECTION 10-202. ENLARGEMENT, REPAIR, ALTERATIONS. Any such structure, described in Section 10-201, may be enlarged, maintained, repaired or remodeled; provided, however, that no such enlargement, maintenance, repair or remodeling shall either create any additional non-conformity or increase the degree of the existing non-conformity of all or any part of such structure, except that as to structures located on a lot that does not comply with the applicable lot size requirements, the side yard requirements shall be determined by Section 10-102. Notwithstanding the provision of this Section 10-202, an addition may be constructed to a principal residential structure that is lawfully non-conforming with respect to the exterior side yard setbacks provided such addition maintains the same or a greater exterior side yard setback than such principal residential structure. (Ordinance 76-074, 07.13.76)

SECTION 10-203. DAMAGE OR DESTRUCTION. In the event that any structure described in Section 10-201 is damaged or destroyed, by any means, to the extent of more than 50% of the cost of replacement of the said structure new, such structure shall not be restored unless it shall thereafter conform to the regulations of the zoning district in which it is located. A structure which is located on a lot that does not comply with the applicable lot size requirements shall not in any event be required to provide a side yard that exceeds the yard requirements of Section 10-102. When a structure is damaged to the extent of 50% or less of the cost of replacement of the structure new, no repairs or restoration shall be made unless a zoning certificate is obtained and restoration is actually begun within one year after the date of such partial destruction and is diligently pursued to completion, provided, however, that any structure used for residential purposes on a lot the size of which would make the rebuilding thereof non-conforming, may be so rebuilt so long as the new structure is used for a single-family residence and conforms to the applicable lot size and dimensional requirements to the same extent as the structure destroyed.

SECTION 10-204. MOVING. No structure described in Section 10-201 shall be moved in whole or in part for any distances whatever, to any other location on the same or any other lot unless the entire structure shall thereafter conform to the regulations of the zoning district in which it is located after being moved.
PART 3 - NON-CONFORMING USES.

SECTION 10-301. AUTHORITY TO CONTINUE. Any lawfully existing non-conforming use of part or all of a structure, or any lawfully existing non-conforming use of land not involving a structure or involving only a structure which is accessory to such use of land, may be continued, so long as it remains otherwise lawful, subject to the regulations contained in Section 10-302 through Section 10-310, and Section 10-401 through Section 10-404.

SECTION 10-302. ORDINARY REPAIR AND MAINTENANCE.

(A) Normal maintenance and incidental repair or replacement, installation, or relocation of non-bearing walls, non-bearing partitions, fixtures, wiring or plumbing may be performed on any structure that is devoted in whole or in part to a non-conforming use; provided, however, that this subsection (A) shall not be deemed to authorize any violation of Section 10-303 through Section 10-309 of this Ordinance.

(B) Nothing in this Ordinance shall be deemed to prevent the strengthening or restoration to a safe condition of a structure in accordance with an order of a public official who is charged with protecting the public safety and who declares such structure to be unsafe and orders its restoration to a safe condition, provided such restoration is not otherwise in violation of Section 10-306 of this Ordinance.

SECTION 10-303. REMODELING. No structure that is devoted in whole or in part to a non-conforming use shall be remodeled unless the entire structure and use thereof shall thereafter conform to all regulations of the zoning district in which it is located.

SECTION 10-304. EXTENSION. A non-conforming use shall not be extended, expanded, enlarged or increased in intensity. Such prohibited activity shall include, without being limited to:

(A) Extension of such use to any part of a structure or land area other than one occupied by such non-conforming use on the effective date of this Ordinance (or on the effective date of a subsequent amendment hereto that causes such use to become non-conforming).

(B) Extension of such use within a building or other structure to any portion of the floor area that was not occupied by such non-conforming use on the effective date of this Ordinance (or on the effective date of a subsequent amendment hereto that causes such use to become non-conforming). However, a non-conforming use may be extended throughout any part of a structure that was lawfully and manifestly designed or arranged for such use on such effective date.

(C) Operation of such non-conforming use in such manner as to conflict with, or to further conflict with if already conflicting on the effective date of this Ordinance (or on the effective date of a subsequent amendment hereto that results in such use becoming non-conforming), any performance standards established for the district for which such use is located.

SECTION 10-305. ENLARGEMENT. No structure that is devoted in whole or in part to a non-conforming use shall be enlarged or added to in any manner unless such structure and the use thereof shall thereafter conform to the regulations of the district in which it is located.

SECTION 10-306. DAMAGE OR DESTRUCTION. In the event that any structure that is devoted in whole or in part to a non-conforming use is damaged or destroyed, by any means, to the extent of more than 50% of the cost of replacement of the structure new, such structure shall not be restored unless such structure and the use thereof shall thereafter conform to all regulations of the zoning district in which it is located. When such damage or destruction is 50% or less of the cost of
replacement new, no repairs or restoration shall be made unless a zoning certificate is obtained and restoration is actually begun within one year after the date of such partial destruction and is diligently pursued to completion.

SECTION 10-307. MOVING. No structure that is devoted in whole or in part to a non-conforming use, shall be moved in whole or in part for any distance whatever, to any other location on the same or any other lot, unless the entire structure and the use thereof shall thereafter conform to all regulations of the zoning district in which it is located after being so moved. No non-conforming use of land shall be moved in whole or in part for any distance whatever, to any other location on the same or any other lot, unless such use shall thereafter conform to all regulations of the zoning district in which it is located after being so moved.

SECTION 10-308. CHANGE IN USE. A non-conforming use shall not be changed to any use other than a use permitted in the zoning district in which the use is located. When a non-conforming use has been changed to any permitted use, it shall not thereafter be changed back to a non-conforming use. For purposes of this section, a use shall be deemed to have been so changed when an existing non-conforming use shall have been terminated and a permitted use shall have commenced and continued for a period of seven (7) days.

SECTION 10-309. ABANDONMENT OR DISCONTINUANCE.

(A) When a non-conforming use of land, not involving a structure, or involving only a structure which is accessory to the non-conforming use of land, is discontinued or abandoned, for a period of two consecutive months (regardless of any reservation of an intent not to abandon or to resume such use), such use shall not thereafter be re-established or resumed. Any subsequent use or occupancy of such land shall comply with the regulations of the zoning district in which such land is located.

(B) When a nonconforming use of a part or all of a structure which was designed and intended for a use which is permitted in the zoning district in which such structure is located is discontinued or abandoned for a period of two consecutive months (regardless of any reservation of an intent not to abandon or to resume such use), such use shall not thereafter be re-established or resumed. Any subsequent use or occupancy of such structure shall comply with the regulations of the zoning district in which such structure is located.

(C) When a non-conforming use of a part or all of a structure which was not designed and intended for any use which is permitted in the zoning district in which such structure is located is discontinued or abandoned for a period of six (6) consecutive months (regardless of any reservation of an intent not to abandon or to resume such use), such use shall not thereafter be re-established or resumed. Any subsequent use or occupancy of such structure shall comply with the regulations of the zoning district in which such structure is located.

SECTION 10-310. NON-CONFORMING ACCESSORY USES. No use which is accessory to a principal non-conforming use shall continue after such principal use shall have ceased or terminated.
PART 4 - ELIMINATION OF NON-CONFORMING USES AND STRUCTURES.

SECTION 10-401. PROCEDURES. In accordance with authority granted to municipalities for the elimination of non-conforming uses and structures in Ch. 24, S11-13-1 (Ill. Rev. Stat. 1971), it is hereby declared to be the policy of the Village to eliminate the said uses and structures.

(A) The Zoning Administrator shall inventory the non-conforming uses and structures in the Village and shall determine the assessed valuation, normal useful life, and years in existence for each. Such inventory and determinations shall be kept on file by the Zoning Administrator and be a matter of public record.

(B) The Zoning Administrator shall notify in writing the owner of each parcel of land or each structure which has been determined to be non-conforming, at least once every year. Such notice shall contain:

1. The normal useful life of the use or structure as determined;
2. The date at which it has been determined the use was commenced; and
3. The assessed valuation of the use or structure as determined.

(C) Nothing in this section shall apply to non-conforming structures to which Section 10-203 or Section 10-402 do not apply.

SECTION 10-402. ELIMINATION OF NON-CONFORMING BUILDINGS AND STRUCTURES.

(A) Any structure or building, all or substantially all of which is designed or intended for a use not permitted in the district in which it is located shall be removed and its use thereafter cease, or shall be converted to a building or structure designed or intended for a use permitted in the district in which it is located at the end of its useful life as determined by the Zoning Administrator. Nothing in this Section 10-402 shall apply to structures used for residential purposes in residential zoning classifications.

(B) Condemnation of non-conforming buildings and structures. The Village of Bolingbrook, at any time, and from time to time, by Ordinance duly enacted:

1. may acquire by condemnation any non-conforming building or structure, all or substantially all of which is designed or intended for a use not permitted in the district in which it is located, and all land which is necessary or appropriate for the rehabilitation or redevelopment of the area blighted by such non-conforming building or structure;
2. may remove or demolish all such non-conforming buildings and structures so acquired;
3. may hold and use any remaining property for public purposes; and
4. may sell, lease or exchange such property as is not held for public purposes, subject to the provisions of this Comprehensive Amendment, or any amendment hereto.

No such acquisition by condemnation shall be made until such time as the Plan Commission, at the request of the Board of Trustees, or upon its own initiative, has made a study of the area within which such non-conforming building or structure is located and has filed a written report on such study with the Board of Trustees.
SECTION 10-403. ELIMINATION OF NON-CONFORMING USE OF LAND.

(A) The non-conforming use of land shall be discontinued and cease ten years from the date of the adoption of this amendment in each of the following cases:

1. Where no buildings or structures are employed in connection with such use;

2. Where the only buildings or structures or other physical improvements employed are accessory or incidental to such use or have an assessed valuation of less than $2,000; or

3. Where such is maintained in connection with a conforming building or structure; except that inadequate off-street parking facilities used in connection with a building the use of which complies with the requirements of the district in which it is located, may be continued for so long as the premises are used for a permitted use.

(B) A non-conforming use of land which is accessory to the non-conforming use of building or structure shall be discontinued on the same date the non-conforming use of the building or structure is discontinued.

(C) Nothing in this Section shall require the elimination of a non-conforming use of land for residential purposes.

(Ordinance 80-057, 10.07.80)

SECTION 10-404. APPEALS. An appeal from the determinations made by the Zoning Administrator under this section shall be appealable to the Zoning Board of Appeals in the same fashion as any other decision of the Zoning Administrator.

(E) Maintain in current status the Official Zoning Map.

(F) Maintain permanent and current records required by this Ordinance, including, but not limited to, zoning certificates, occupancy certificates, useful life determinations and non-conforming use certificates, inspections, and all official action on appeals, variations and amendments.

(I) Maintain for distribution to the public a supply of copies of the Zoning Map or Maps, the compiled text of the Zoning Ordinance, and the rules of the Zoning Board of Appeals.
PART 3 - ZONING CERTIFICATES.

SECTION 11-301. ISSUANCE OF PERMITS. No building permit pertaining to the construction, remodeling, moving or reconstruction of any structure shall be issued by the Village of Bolingbrook unless an application for a zoning certificate shall first have been made to and obtained from the Zoning Administrator. Unless a Zoning Certificate shall first have been obtained from the office of the Zoning Administrator:

(A) The construction, building, moving, remodeling or reconstruction of any structure shall not be commenced;

(B) The improvement of land preliminary to any use of such land shall not be commenced; and

(C) Permits pertaining to the use of land or structures shall not be issued by any official, officer, employee, department, board or bureau of the Village of Bolingbrook. Any application for a building permit that contains the information required by Section 11-302 and, when applicable Section 11-303, shall be deemed to be an application for a zoning certificate. Any zoning certificate issued in conflict with the provisions of this Ordinance shall be null and void.

SECTION 11-302. APPLICATION FOR ZONING CERTIFICATE. Every application for a zoning certificate shall be accompanied by the following:

(A) The certificate of a registered architect or registered structural engineer licensed by the State of Illinois, or of an owner-designer, that the proposed construction, remodeling, or reconstruction complies with all of the provisions of this Ordinance.

(B) A plat, in duplicate, of the piece or parcel of land, lot, lots, block or blocks, or parts or portions thereof, drawn to scale showing the actual dimensions of the piece or parcel, lot, lots, block or blocks, or parts or portions thereof, according to the recorded plat of such land.

(C) A plot plan, in duplicate, drawn to scale and in such form as may from time to time, be prescribed by the Zoning Administrator, showing the location, ground area, height, and bulk of all present and proposed structures, drives and off-street parking and loading spaces, the building lines in relation to lot lines, waste disposal areas, the use to be made of such present and proposed structures on the land, and such other information as may be required by the Zoning Administrator for the proper enforcement of this Ordinance. Applications for zoning certificates for property located in an Industrial District shall also be subject to Section 11-303 and on such applications the plot plan shall also show all structures, streets, streams and any other significant physical features within 200 feet of the boundary of the site shown on the plot plan.

One copy of the plat and the plot plan shall be retained by the Zoning Administrator as a public record.

SECTION 11-303. APPLICATION FOR ZONING CERTIFICATE FOR INDUSTRIAL USES. All applications for a zoning certificate for the construction, moving, remodeling, or reconstruction of any structure to be located in an industrial district shall be accompanied by sufficient information to enable the Zoning Administrator to determine that there will be compliance with all of the applicable performance standards of Section 4-303 of this Ordinance at all times. At the request of the Zoning Administrator, the applicant shall provide, in addition to the information required under Section 11-302, the following:
(A) A description of the activity to be conducted in sufficient detail to indicate the extent to which the proposed operation will produce waste products, conditions, or external effects which are regulated or otherwise limited by Section 4-303 of this Ordinance.

(B) A description of the type and location of any abatement devices or recording instruments used to control or measure conformity with any of the standards set forth in Section 4-303 of this Ordinance.

(C) Such other data and certificates as may reasonably be required by the Zoning Administrator to reach a determination with respect to whether the proposed use or structure will comply with the requirements of Section 4-303 of this Ordinance.

All information and evidence submitted in an application for a zoning certificate to indicate conformity with the performance standards set forth in Section 4-303 of this Ordinance shall constitute a certification and an agreement on the part of the applicant that the proposed structure or use can and will conform to such standards at all times.

SECTION 11-304. ISSUANCE OF ZONING CERTIFICATE.

(A) A zoning certificate shall be either issued or refused by the Zoning Administrator within 14 days after the receipt of an application therefore, or within such further period as may be agreed to by the applicant; provided, however, that the Zoning Administrator shall have a period of 21 days within which to issue or refuse a zoning certificate on all applications which are required to comply with the provisions of Section 11-303 of this Ordinance. When the Zoning Administrator refuses to issue a zoning certificate, he shall advise the applicant in writing of the reasons for refusal.

(B) The fee(s) for such zoning certificate shall be as follows: (Ordinance 04-062, 05.18.04)

1. Residential – Single Family Detached/Attached and Multiple Family
   a. Accessory uses or structures (includes shed, pool, deck, patio, hot tub, gazebo, driveway extension) $30.00

   e. Occupancy landscape reinspepection  $60.00
      (Ordinance 06-057, 05.23.06)

SECTION 11-305. PERIOD OF VALIDITY. A zoning certificate shall become null and void six (6) months after the date on which it is issued unless within such six (6) month period, construction, moving, remodeling or reconstruction of a structure is commenced or a use is commenced.
SECTION 11-306. OCCUPANCY CERTIFICATES. No structures or addition thereto, constructed, moved, remodeled, or reconstructed after the effective date of this Ordinance shall be occupied or used for any purpose, and no land vacant on the effective date of this Ordinance shall be used for any other use, unless an occupancy certificate shall first have been obtained from the Zoning Administrator certifying that the proposed use or occupancy complies with all the provisions of this Ordinance.

SECTION 11-307. APPLICATION FOR OCCUPANCY CERTIFICATE. Every application for a zoning certificate shall be deemed to be an application for an occupancy certificate. Every application for an occupancy certificate for a new or changed use of land or structures where no zoning certificate is required shall be filed with the Zoning Administrator and be in such form and contain such information as the Zoning Administrator shall provide by general rule.

SECTION 11-308. APPLICATION FOR OCCUPANCY CERTIFICATES FOR INDUSTRIAL USES. All applications for an occupancy certificate for any use to be located in an industrial district where no zoning certificate is required shall be accompanied by sufficient information to enable the Zoning Administrator to determine that all the applicable performance standards of Section 4-303 of this Ordinance can and will be complied with at all times. At the request of the Zoning Administrator, the applicant shall provide such information as is specified in Section 11-303 of this Ordinance.

SECTION 11-309. ISSUANCE OF OCCUPANCY CERTIFICATE. No occupancy certificate for a structure or addition thereto constructed, moved, remodeled or reconstructed after the effective date of this Ordinance shall be issued until such work has been completed, including off-street parking and loading spaces, and the premises have been inspected by the Zoning Administrator and determined to be in full and complete compliance with the plans and specifications upon which the issuance of the zoning certificate was based. No occupancy certificate for a new use of any structure or land shall be issued until the premises have been inspected by the Zoning Administrator and determined to be in full and complete compliance with all the applicable regulations for the zoning district in which it is located. Pending the issuance of a permanent occupancy certificate, a temporary occupancy certificate may be issued to be valid for a period not to exceed six (6) months from its date pending the completion of any addition or during partial occupancy of the premises. Temporary Occupancy Permits may only be issued when extraordinary circumstances exist (i.e. unavailability of materials, inclement weather etc.) and when it would not jeopardize the life or property of the citizens of Bolingbrook. Any temporary occupancy permit issued must be accompanied by a letter of credit or a bond to cover site work which has not been completed at the time of application for an occupancy permit. The amount of the letter of credit or bond shall be determined by the Zoning Administrator and shall be deposited in an escrow account by the Director of Finance for the duration of the temporary occupancy permit or until the site work has been completed in accordance with the approved site plan and inspected by the Zoning Administrator. An occupancy certificate shall be issued, or written notice shall be given to the applicant stating the reasons why a certificate cannot be issued, within 14 days after the receipt of an application therefor; or after the Zoning Administrator is notified in writing that the structures or premises are ready for occupancy; provided, however, that the Zoning Administrator shall have a period of 21 days within which to issue or refuse an occupancy certificate on all applications which are required to comply with the provisions of Section 11-303 of this Ordinance.

(Ordinance 80-055, 09.09.80)

SECTION 11-310. ESCROW DEPOSITS. Whenever an application for a zoning or occupancy certificate for a new or altered structure or use in an industrial district indicates, in the opinion of the Zoning Administrator, that the operations or activities to be conducted may violate the performance standards of Section 4-303 of this Ordinance, the Zoning Administrator shall, as a condition precedent to issuing a zoning or occupancy certificate, require the deposit in escrow of not more than $500, to be held by the Zoning Administrator for a period of one year after the date that such
new or altered use is commenced. If during such one year period or at any time in the future the Zoning Administrator believes there is a reasonable probability that the regulations of Section 4-303 are being violated, he may employ a qualified technician or technicians to perform investigations, measurements, and analyses to determine whether or not the regulations of Section 4-303 are, in fact, being violated and may pay his or their reasonable fees out of the aforementioned escrow deposit, regardless of the outcome of the investigation. If reasonable fees of such technician or technicians exceed the amount of any available escrow deposit, and if a violation of Section 4-303 is discovered, the fees may be recovered as penalty in the same manner as, and in addition to, the penalties specified in Article 12 of this Ordinance. Escrow deposits or remainders of escrow deposits shall be returned to the depositors at the expiration of the escrow period.

An appeal from a decision of the Zoning Administrator made in interpreting this Ordinance may be taken to the Zoning Board of Appeals by any person, firm or corporation aggrieved by said decision or by any officer, department, board or bureau of the Village. Such appeal shall be taken within 35 days of the ruling by the Zoning Administrator, by filing with the Zoning Administrator a notice of appeal, specifying the grounds thereof, and by filing said appeal and a copy of said notice of appeal with the Secretary of the Board. SECTION 11-602. ACTION ON APPEALS. An appeal shall stay all proceedings in furtherance of the decision of appeal unless the Zoning Administrator certifies to the Zoning Board of Appeals after the notice of appeal has been filed with him that, by reasons of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property, in which case the proceedings shall not be stayed otherwise than a restraining order, which may be granted by the Board or by a court of record upon application following notice to the Zoning Administrator, and upon due cause shown. The Board shall select a reasonable time and place for the public hearing on the appeal, shall give due notice thereof to the parties having a known interest therein and shall render a written decision without unreasonable delay, all within the limitations imposed by Section 11-402 of this Ordinance. (Ordinance 76-013, 2.10.76)
PART 7 - VARIATIONS. (Ordinance 76-090, 08.17.76)

SECTION 11-701. AUTHORIZATION. The Board of Trustees and Zoning Board of Appeals may authorize such variations as are hereinafter set forth from the terms of this Ordinance in harmony with their purpose and intent as will not be contrary to the public interest. Variations may be authorized only on those specific instances enumerated in Section 11-704, and then only when the particular Board that has authority to grant the variation requested has made findings of fact, based upon the standards set out in Section 11-705, that owing to special conditions a literal enforcement of the provisions of this Ordinance will, in an individual case, result in practical difficulties or particular hardship for the owner, lessee or occupant of land or a structure.

SECTION 11-702. APPLICATION FOR VARIATION. An application for a variation shall be filed with the Zoning Administrator who shall forward without delay a copy of each to the Secretary of the Board of Appeals for variations governed by Section 11-704(B) or the Village Clerk for variations governed by Section 11-704(A). The application shall contain the following information as well as such additional information as may be prescribed by rule of the Board:

(A) The particular requirements of this Ordinance which prevent the proposed use or construction;

(B) The characteristics of the subject property which prevent compliance with said requirements of this Ordinance;

(C) The reduction of the minimum requirements of this Ordinance which would be necessary to permit the proposed use or construction; and

(D) The practical difficulty or particular hardship which would result if said particular requirements of this Ordinance were applied to the subject property.

SECTION 11-703. HEARING AND NOTICE. The Board having jurisdiction over the variation requested shall select a reasonable time and place for the hearing, all within the limitations imposed by Section 11-402 of this Ordinance. Public notice of such hearing shall be published at least once, not less than 15 days nor more than 30 days before such hearing, in a newspaper published within the said Village of Bolingbrook. Such notice shall contain the date, time and place of the hearing, the street address or common description of the property involved, the legal description of the property involved and a brief description of the relief sought. Either Board may give such additional notice as it may, from time to time, by rule provide. Any party of interest may appear and be heard at the hearing in person, by agent, or by attorney.

SECTION 11-704. AUTHORIZED VARIATIONS.

(A) Variations from the regulations of this Ordinance to permit the completion of residential developments commenced under the terms and conditions of an annexation agreement which has since expired and which could not be completed as so far constructed under this Zoning Ordinance by virtue of amendments to the then-applicable provisions during the life of the said annexation agreement may be granted only by the Board of Trustees after due notice and hearing as set forth in Section 11-703 and then only in accordance with the standards set out in Section 11-705(A), to vary the applicable requirements of this ordinance so that those previous requirements which were applicable when the subject property was annexed to the Village and which were made a condition of said annexation are applicable to the subject property for such time period as is necessary, as determined by the Board, to complete the residential development.
(B) Variations from the regulations of this Ordinance shall be granted by the Board of Appeals, but only in accordance with the standards set out in Section 11-705(B), and may be granted only in the following instances, and in no others:

1. To vary the applicable lot area, lot width, and lot depth requirements, subject to the following limitations:
   a. The minimum lot width and lot depth requirements shall not be reduced more than 25%;
   b. The minimum lot area for a single family or two-family dwelling shall not be reduced more than 20%;
   c. The minimum lot area per dwelling unit requirement for multiple family dwellings shall not be reduced so as to permit more than one dwelling unit in addition to the number that would be permitted by strict application of the minimum lot area requirements.

2. To vary the applicable bulk regulations, including maximum height, lot coverage, and floor area ratio and minimum yard requirements.

3. To vary the applicable off-street parking and off-street loading requirements contained in Article VI of this Ordinance.

4. To vary the regulations relating to restoration of damaged or destroyed non-conforming structures contained in Section 10-203 of this Ordinance.

5. To vary the maximum sign area, maximum sign height and sign setback requirements. (Ordinance 90-065, 05.08.90)

SECTION 11-705. STANDARDS FOR VARIATIONS.

(A) The Board of Trustees shall not vary the regulations of this Ordinance under Section 11-704(A) unless it shall make findings of fact based upon the evidence presented that:

1. The subject property was subject to an annexation agreement which has since expired;

2. The applicant had during the term of the annexation agreement:
   a. Commenced construction of a residential development in accordance with the provisions of the Zoning Ordinance then applicable to the subject property, and had completed a substantial portion thereof;
   b. Ceased and delayed such construction in whole or in part because of adverse economic conditions generally affecting the construction industry and which made the completion of the said development within the time limits set forth in the expired annexation agreement financially burdensome.

3. If completed, the residential development so commenced and so delayed would be:
   a. Substantially identical to that which had originally been commenced under the terms and conditions of the expired annexation agreement;
b. An asset to the neighborhood and the Village as a whole.

4. If not completed, or if completed under the terms and conditions of this Ordinance, the said residential development commenced and delayed as aforesaid would:
   a. Fail to harmonize with that portion already complete by reason of yards, open space, structural appearance and site plan;
   b. Generally detract from the character of the neighborhood and the Village;

5. If granted the variation sought would permit no more than what the applicant could construct under the terms and conditions of the expired annexation agreement relating to zoning.

6. The proposed variation will not be materially detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

7. The proposed variation will not impair an adequate supply of light and air to adjacent property, substantially increase congestion in the public streets, increase the danger of fire, or endanger the public safety.

8. The proposed variation will not alter the essential character of the locality.

9. The proposed variation will not be materially detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

(B) The Zoning Board of Appeals shall not vary the regulations of this Ordinance unless it shall make findings of fact based upon the evidence as presented that:

1. The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations of the district in which it is located.

2. The proposed variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship which will result if the strict letter of the regulations were carried out and which is not generally applicable to property within the same district.

3. The alleged hardship has not been directly created by any person presently having a proprietary interest in the premises.

4. The proposed variation will not be materially detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

5. The proposed variation will not impair an adequate supply of light and air to adjacent property, substantially increase congestion in the public streets, increase the danger of fire, or endanger the public safety.

6. The proposed variation will not alter the essential character of the locality.

7. The proposed variation will not be materially detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

8. The proposed variation is in harmony with the spirit and intent of this Ordinance.

(C) The Boards may impose such conditions and restrictions upon the location, construction, design and use of the property benefited by a variation as may be necessary or appropriate to comply with the foregoing standards and to protect adjacent property and property values.
SECTION 11-706. DECISIONS AND VARIATIONS. The concurring vote of four members of the Board of Trustees or the Zoning Board of Appeals as the case may be, shall be necessary to grant a variation. A variation shall be granted by means of a conclusion or statement of relief granted, supported by findings of fact, which statement and findings shall be transmitted to the applicant not less than 35 days from the date of the decision thereon. In deciding requests for variations, the Board shall be governed by the limitations on time imposed by Section 11-404 of this Ordinance, provided, however, that the Boards upon their own motion, or the applicant upon his own motion, may each extend the period of time provided for in the said Section 11-404 for a period not to exceed 30 days per extension. (Ordinance 80-057, 10.07.80)

(A) The findings of fact shall specify the reason or reasons for making the variation, and shall refer to any exhibits containing plans and specifications for the proposed variation which have been made a part of the application or which were introduced at the public hearing as evidence. Such exhibits shall remain part of the permanent record of the Board of Appeals.

(B) The terms of relief granted shall be specifically set forth in conclusions or statements separate from the findings of fact.

SECTION 11-707. PERIOD OF VALIDITY. No decision granting a variation shall be valid for a period longer than twelve (12) months from the date of such decision unless:

(A) An application for a zoning certificate is obtained within such period and construction, reconstruction, moving and remodeling is started, or

(B) An occupancy certificate is obtained and a use is commenced.

The Boards may grant additional extensions of time not exceeding 180 days each, upon written application made within the initial twelve-month period without further notice or hearing, but said right to so extend said time shall not include the right to grant additional relief by expanding the scope of the variation.

Provided, however, that nothing in this Section shall limit or affect the validity of a variation granted under the terms of this Part 7 if the relief sought and obtained herein does not require the issuance of a zoning or occupancy certificate or the commencement of use, construction, reconstruction, moving or remodeling.

SECTION 11-708. ADMINISTRATIVE RELIEF FOR MINOR NON-COMPLIANCE. (Amended in its entirety by Ordinance 13-041, 06.11.13)

(A) The Planning and Zoning Administrator may provide administrative relief for noncompliance with the requirements of the Zoning Ordinance upon written application by the property owner. The Planning and Zoning Administrator must certify that the property will comply with the Zoning Ordinance if the following criteria are met:

1. The non-compliance is existing at the time of application and

2. The non-compliance is minor, being

   a. A lineal dimension of 12 inches or less, or

   b. An areal dimension of 2 percent or less, and

3. The non-compliance was neither intentional nor grossly negligent, and
4. The requested relief will conform to the intent of the Zoning Ordinance, and

5. The requested relief will neither be detrimental to the public welfare nor harmful to other properties or improvements, and

6. The requested relief will not confer upon the property owner any special privilege not available to others in the same or substantially similar circumstances, and

7. The non-compliance cannot be corrected without significant or substantial hardship disproportionate to the value of the affected improvement.

(B) The Planning and Zoning Administrator may confer with any department or agency which might be affected by allowing the non-compliance.

(C) The Planning and Zoning Administrator shall notify all persons who would be notified for a variance request for the affected property, seeking input on the propriety of accepting the non-compliance. If any written communication opposing the requested relief is received by the Village within seven (7) days of the notice, the matter shall be referred to the Zoning Board of Appeals and treated as an application for a variance. The Planning and Zoning Administrator shall so notify the applicant.

(D) If the Planning and Zoning Administrator finds that the application fulfills the criteria listed above and is not subject to objection by the consulted departments, agencies, or notified parties, the Planning and Zoning Administrator shall issue a Certificate of Substantial Compliance which grants relief with specificity.

(E) Any person seeking administrative relief shall complete the application form and pay the application fees applicable to a variance request.

1.
